***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-104 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Burnstein (USP 6,268,716). Burnstein discloses the digital controller having a controller to the drive signals at the sampling frequency and to dynamically set a phase interval between each of the output phases. See figure below.
